Easy to put on and take off, ensuring smooth practice

Feature

1 Fit-on

It takes only about 3 minutes to put on the suit. This body suit type gear worn like overalls allows students to experience restrictions in physical functions with little loss of time.

2 Adjustment

Parts can be fixed in one action

- 1 The angle of hip flexion is adjusted.
- 2 The motion ranges of parts of the body can be adjusted.

The hip angle and motion ranges of various parts of the body can be adjusted with belts. Age-associated changes, paralysis of one side of the body, and hemiplegia can also be experienced.

3 Restriction Belt

Neck restriction belt

Elbow restriction belt

Knee restriction belt

Newly developed neck/elbow/knee control belts restrict motion ranges. The wearer can experience the fear of not being able to promptly cope with danger.

Practice

The product designed on the basis of data allows the wearer to experience physical changes due to aging.

- Vision
- Hearing
- Grip strength
- Physical abilities
