

# Sakamoto Venipuncture Trainer Light

NEW

- Weight/2.5kg ● Case size/W25×D58×H22cm
- Accessories/Arm model, Injection pad (with blood vessels), Bottle, Bottle stand, Exchangeable blood vessel ×10 (standard size), Stick for exchange vessels, Cup, Baby powder,

## Features

### Simple structure and lower cost Perfect for considering multiple units!

This model has excellent cost performance and is equipped with essential functions for venipuncture training.

### Comes with high quality injection pad

Although it is low cost, the important injection pad is of the same quality as the higher-end model. The soft pad allows you to realistically feel the movement of blood vessels.
